

THE YOUTH RESCUE OUTREACH SAVES, TOUCHES, INSPIRES AND TRANSFORMS MANY YOUTH FROM THEIR CHALLENGES

The head mistress was taking Tyro volunteers to the student's hall at Talents College Mukono

Good for Talents College to receive such a wonderful outreach at their school, they posed for that. By saying thanks tyro to saves us from many challenges! 90% of youth said that TYRO Presentation on HIV/AIDS and Domestic Violence was excellent and very Good “you’ve been good and we have appreciated your work” “thanks for teaching me how to abstain from sex” “I have learnt how to avoid HIV/AIDS” “Excellent” “very good presenters” I have loved & liked TYRO so you should come back to Talents College Mukono- Uganda.

More than Six Hundred (600) youth were sensitized on 10/04/2009 at Talents College-Uganda. it was such interesting and educative event, where youth actively participated.

THE YOUTH RESCUE OUTREACH SAVES, TOUCHES, INSPIRES AND TRANSFORMS MANY YOUTH FROM THEIR CHALLENGES

The youth were paying attention during the discussion and many lives were changed because what they learnt was so educative and wonderful to them.

Directors from other organisations such as Mr. Terry MacDonald (African Regional Director Canadian Cooperative Association-CCA), Mr. Wilberforce Nsereko (Director Friends In Service International), Mr. David Gill(Director Changing Worlds-London) participated.

On the right is Mr. Terry MacDonald African Region Director (CCA), great supporter of TYRO with heart of sacrifice &servant hood. Spoke about how youth can live wisely.

**THE YOUTH RESCUE OUTREACH SAVES, TOUCHES, INSPIRES AND TRANSFORMS MANY YOUTH
FROM THEIR CHALLENGES**

We are group of committed young people, who live, and study, and work, in and throughout Uganda, Africa.

We believe that the youth of our country, and indeed of all African countries, rest on the shoulders, and in the hearts, of Africa's youth.

We invite you to learn more about us, and if you like what you see and wish to become a part of our efforts, to join with us to help develop tomorrow's leaders, families and national workforce - one young person at a time! Please join with us and help support our efforts! WWW.TYROAFRICA.ORG

TYRO has aggressive future plans to better serve the youth and these include the following:

1. Headquarters

We intend to have Headquarter offices around Kampala-Uganda, and also have plans of buying land where our permanent offices are to be thus, set up conference halls; this will help us to save money which would be spent on rent.

Other regional offices will also be put in place; Eastern, Western and Northern hence strengthening our administration services in such areas.

2. Means of Transport

The organization needs vehicles and motorcycles for easy access especially in the far rural areas hence making movements easy to places where outreaches are to be held.

3. Formation of Awareness Clubs

We wish to organize awareness clubs in institutions of higher learning like universities, colleges and secondary schools in Uganda and around African nations where youth will form interaction groups, and thereby they will learn more about the meaning of life.

4. Youth Empowerment Programs

We plan to empower the youth to start up their own income generating projects, like farming, poultry, carpentry even in other areas, this will be done through supporting them with the required knowledge about how to become job creators rather than job seekers. Since knowledge is power, youths' standards of living will be improved.

**THE YOUTH RESCUE OUTREACH SAVES, TOUCHES, INSPIRES AND TRANSFORMS MANY YOUTH
FROM THEIR CHALLENGES**

5. Work with Mass Media

We also plan to involve media like radio, televisions and news papers, etc. We also plan to write magazines, journals, leaflets, this will help us to sensitize the youth especially concerning HIV/AIDS, its prevention and treatment, through media TYRO services will at least reach most of the youth in the country.

6. Extending TYRO's Reach

We plan to extend TYRO services to other African countries, where by improving youth awareness on leadership skills, sensitization about HIV/AIDS, wealth creation, gender and domestic violence, community volunteerism, among others. So that even other countries may benefit from TYRO services.

7. Training and Counseling Centers

We also plan to open up training and counseling centers for youth, it will be so much more beneficial since youth are to be counseled, guided and directed on how to live wisely, this will enable us to fight against ignorance and illiteracy among the youth hence saving youth of this generation and future generations.

8. Continued Outreaches throughout Uganda

During the coming two years we will continue to organize and hold outreaches across the country.

9. Continued Fund Raising Effort

During the next two years we will actively be seeking donors and sponsors to help carry on our outreach work. We are hopeful that our work will speak for itself. We are also hoping that our web site can help inform others regarding the work that we are doing.

But the biggest challenge about financial limitation, where meeting all the outreach requirements become very difficult. On such a cause, we therefore call upon Volunteers, Organizations, Companies, Ministries, Governments and Individuals who can and willing to supports TYRO efforts, to join the plane. **Thank you for your interest and support.**
